

**The new and Revolutionary
LDP CARD
Making Engineering Affordable**

Engineering should be affordable. This is why we have decided to offer a special card which gives the lowest rates ever.

We do everything in our power to minimize the costs associated with developing a new product. Accordingly, with the **LDP CARD** we have been able to set the lowest hourly rates in Europe.

This compares very favorably with other consulting firms which can charge up to twice as much.

We are going to deliver the highest quality at the lowest price.

You can manage your LDP CARD through the Internet

Dear Future Customer,

LDP Aerospace would like to introduce you its exclusive **CARD** which will enable you to get a full array of advanced engineering services at the lowest possible rates.

Please find the time to read through this brochure and understand all the advantage of our innovative way to see engineering.

Do not let this opportunity pass you by. **LDP CARD** is offered to you for a limited amount of time only.

Making Engineering Affordable Always Delivering the Best

LDP CARD allows you to have access to the **most Advanced Engineering Services** at the **most Affordable Rates** in Western Europe. We are a small engineering consulting firm located in Northern Italy, specializing in Structural, Mechanical and Fluid Dynamics.

Our rates are the best because of

- Agreements with software Houses for which we are official consultants
- Low overhead
- Strategic Location in Northern Italy

If you will find lower rates for services of our same quality, we will refund to you the difference.

Every client is serviced by our Office with the maximum of professionalism; we manage the overall project and problem structuring, as well as full-time Client tutoring and consulting; we work closely with the client to probe options, test ideas, and implement changes to existing projects.

LDP Aerospace focuses on one Client at a time and draw on its codified knowledge and proven methodologies. We take the responsibility for the quality of the final result. We put quality and professionalism in each project we follow, and in every analysis we perform. We used leading edge software to serve our clients at best.

THE MOST VALUABLE RESOURCE WE CAN OFFER ARE THE PEOPLE WHO ARE EXPERT AT WHAT THEY DO.
